EU Data Act – a brief recap

ARGE Conference 2024:

What is the Data Act and what is the political aim? (1/3)

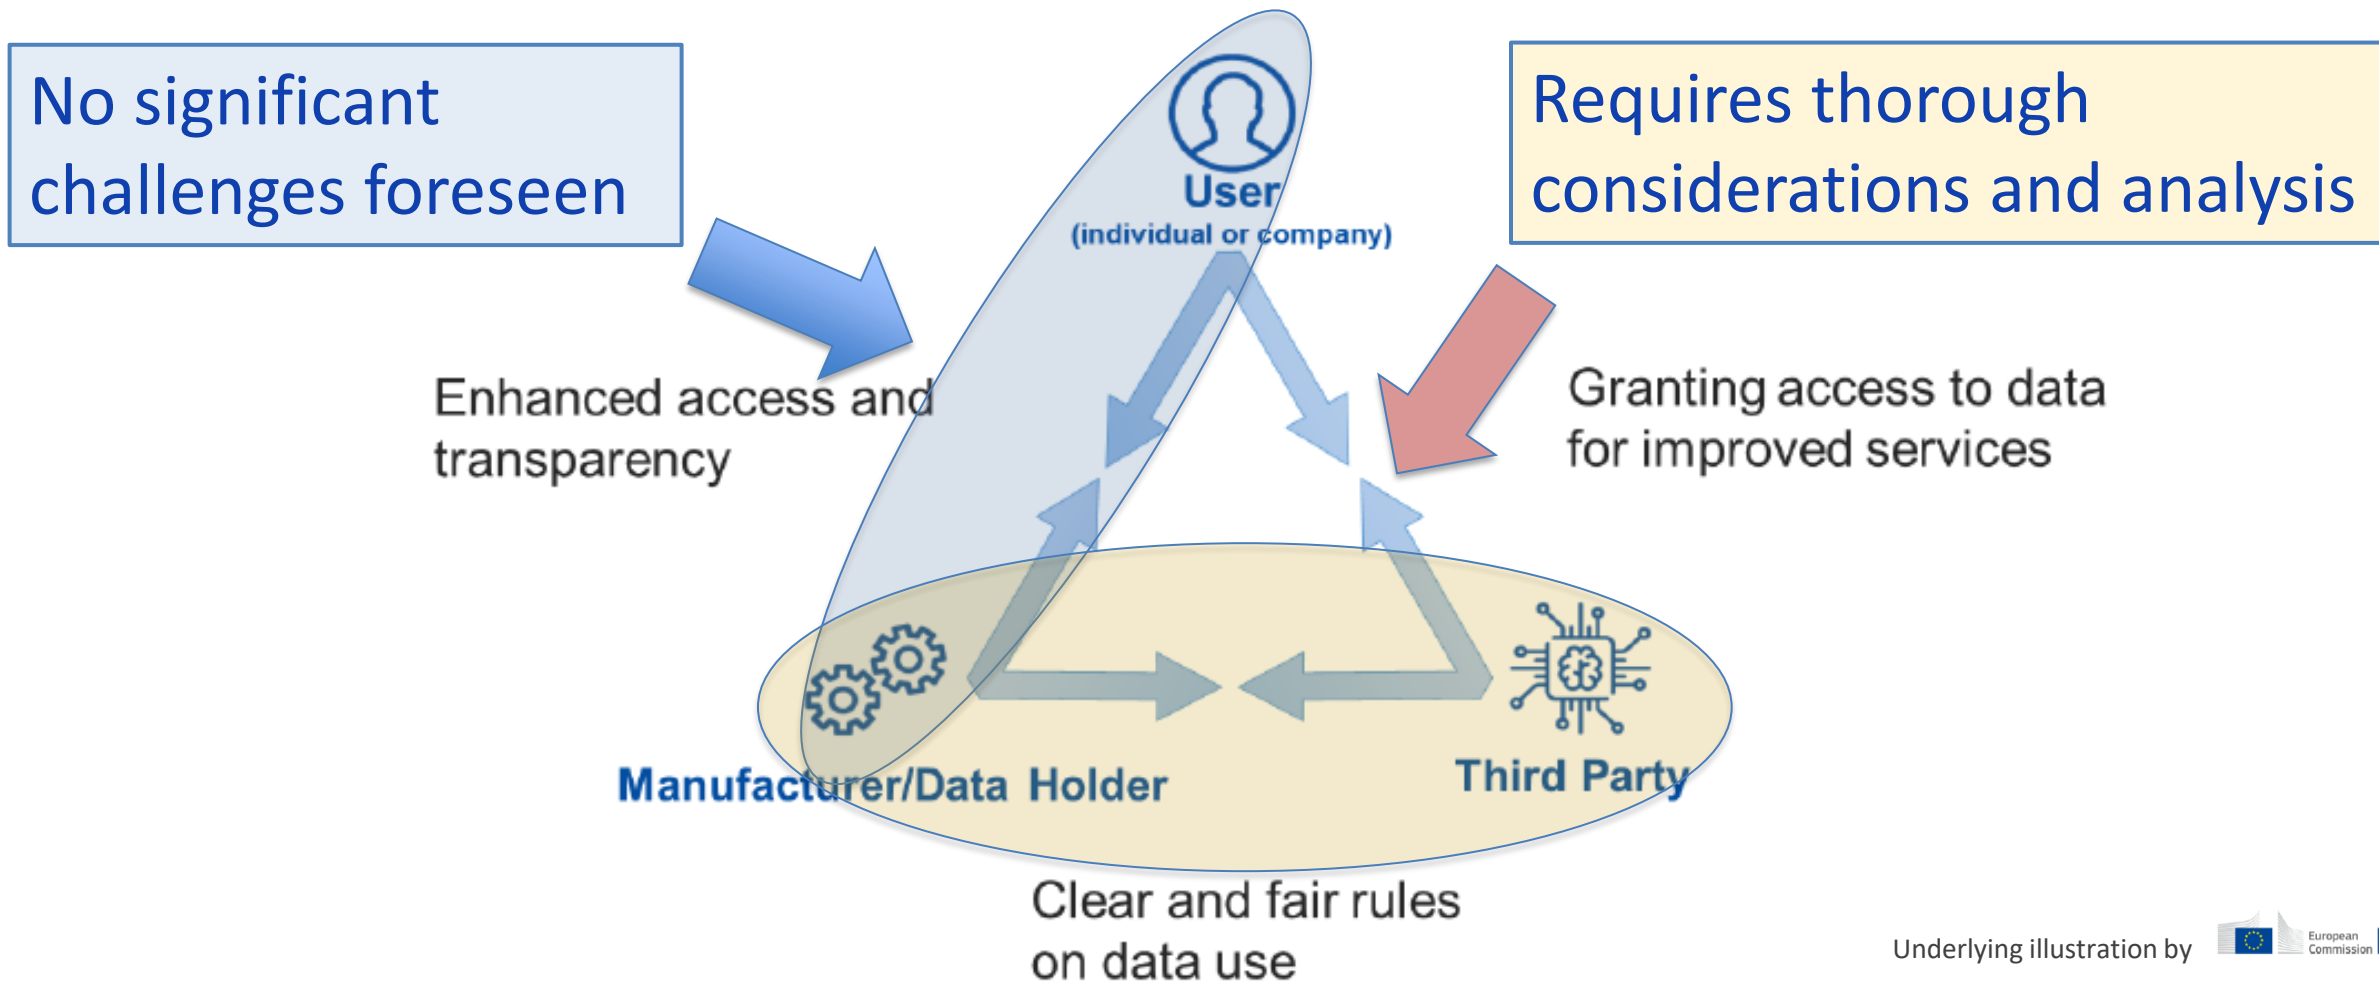

- ➔ It is an EU Regulation on harmonised rules for fair access to and use of data; it will become applicable on 12th September 2025
- ➔ Facilitate access to and use of usage-data from connected products and related services
- ➔ Enabling of users to access the data (comment: and share it with others)
- ➔ Make it easy for the user to switch service providers

What is the Data Act and what is the political aim?

- ➔ **It is an EU Regulation on harmonised rules for fair access to and use of data;** it will become applicable on 12th September 2025
- ➔ **Facilitate access to and use of usage-data from connected products and related services**
- ➔ **Enabling of users to access the data** (comment: and share it with others)
- ➔ **Make it easy for the user to switch service providers**

ARGE's reaction towards the EC in 2024

ARGE Working Group *Digitalisation* | Task Group *Data Act*

Kai Oberste-Ufer (dormakaba) – Convenor

Alexandre Ballet (DOM Security)

Julian Grün (GEZE)

Dominik Hermann (ECO Schulte)

Iacopo Mambelli (CISA / ALLEGION)

Iñaki Mendoza (IFAM)

Matt Northern (ASSA ABLOY)

3 'ARGE use cases'

1. **Operators for powered doors, windows, and gates** in an IoT network

2. **Smart door locking devices** for smart home solutions

3. **Integrated security management systems** (access control, video surveillance, alarm ...)

ARGE's questions to EC:

- ➡ **What types of data need to be shared with a third party?**
 - ⇒ Raw data, processed data
- ➡ **When can the 'safety & security' handbrakes be used?**
 - ⇒ Trained partner required
 - ⇒ Insisting on secured, encrypted method of data transmission
- ➡ **How can data holder make sure that the request comes from the legitimate user of the data?**
- ➡ **How can cost for making data available be determined?**

Further actions:

- ➡ Document with **questions to be sent to the European Commission**
- ➡ Based on the answers received and further guidance made available by EC, **an ARGE guide, specifically focusing on the 3 'ARGE uses cases' will be created**

Thank you!
